CIV # 06-236-
SLR

9/29/2006

Dear Judge Rabe

I received your ruling dated Sept. 22 2006. And am glad you will receive and review the retaliation claim.

However I am disappointed in your issue of first cook. Yes I used "building tends" as an example but not to show Gowan shouldn't hold first cook position, but to show the similarity of authority given to both and the unconstitutionality of inmate being in charge of inmates; making hiring decisions, firing decisions, punishment and bribing and threatening. We as a group (2nd cooks and 1st cook) met with Lt. Morris who issued us the power supplied through "her" officers that any time we had an inmate that did not subject themselves to our rules and authority would be fired or punished, and if we didn't get the results from her officers to see her directly and it would be handled. I fought these procedures as ~~against~~ Constitution violation of the 8th Am. Maybe I used the wrong cases but a violation is a violation. It was addressed at the disciplinary hearing and the disciplinary officer addressed the illegality of this not only as prison rules but state and federal constitutional issues, and told Lt. Morris. Mr. Klein

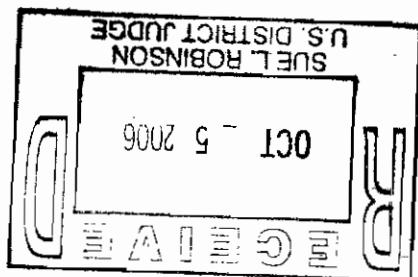

and the 2 offices present that it was a violation
and must stop. Lt. Morris said she would
run her kitchen anyway she wanted. And as
of today this violation ~~has not~~ been addressed
and condemned except in this memorandum.

I do not wish to address it again here
but I do not want to lose my chance at appeal
to 3rd Circuit if I address only the issue
of retaliation. I am asking you permission
so I can later address this issue after
the retaliation issue is settled.

I thank you for your fast response

Sincerely in Christ
